Dear Jack:

Reference is made to your proposal CMCC Doc. No. 151X5.1273 dated October 27, 1958 for the design, development, fabrication and installation of an improved Band 1 receiver for System 4.

Reference document has been reviewed by Customer No. 3 and, although they find the increased capability is technically and operationally desirable, they have requested you be informed that because of the relatively high cost and distant availability of the modification, it is not considered feasible at this time to proceed with it.

Very truly yours,

25X1
